Artist Endless has created a bold new large-scale mural in central Brighton- an original, one-of-a-kind artwork created to deliver a powerful message: "Creativity Matters."

The piece features Hollywood actor and leading LGBTQ+ figure Luke Evans, along with exclusive quotes from the star, adding an extra layer of depth and personality to the installation. Located on the iconic wall on Jew Street, beside Indelible Fine Art Gallery, the existing mural by Endless has already become a major focal point within the city. Locals and tourists regularly stop to take photos, and the artwork is quickly gaining traction across social platforms such as TikTok and Instagram.

This commanding piece features a meticulously constructed portrait blending Endless' own likeness with that of acclaimed Brit Hollywood actor Luke Evans. Anchored by the bold slogan "Vision + Belief + Endure + Create," the work stands as a declaration of resilience, a reminder that true creation demands courage, conviction, and an unwavering defiance in the face of adversity.

The collaboration was born after Endless and Luke met at the opening of a Gilbert & George exhibition, where the artist was inspired by Evans' multifaceted journey from his celebrated acting career to the launch of his fashion brand BDXY. Luke's rise from humble beginnings in some ways mirrors Endless' own path, making his features a natural and meaningful element within the mural's narrative.

Luke's response to the piece this week:

*"It's a monumental artwork that I am more than proud to be a part of, I believe in the message Endless is putting across within his unique style, I am sure this artwork will serve as a beacon of hope and an energising call to the creative spirit that lives within us all."*

Luke Evans

Together, Endless and Luke Evans hope this artwork serves as a beacon of hope and inspiration for the Brighton community.

## About the artist

**Endless** is a London-born artist working at the intersection of street culture, advertising and fine art. His practice reframes the language of branding and celebrity, moving fluidly from wall to gallery while interrogating power, desire and consumer identity.

Emerging from London's streets, his bold graphic interventions quickly established him as a distinctive voice within British street art. Central to his practice is the **Crotch Grab** motif – a provocative inversion of the *Venus Pudica* that examines sex, ownership and the commodification of the body in contemporary media.

Endless has collaborated with figures and brands including Karl Lagerfeld, Liberty of London, Gilbert & George and Fiorucci, and has attracted a strong celebrity following from Rita Ora to Luke Evans. His work is held in the Uffizi Gallery's permanent collection, and in 2022 he represented San Marino at the 59th Venice Biennale.
